EXPLANATION

32 The inclusion of this explanation does not constitute agreement with
33 the explanation's substance by the members of the general assembly.

34 Under current law, a "rescue vehicle" is a motor vehicle
35 which is equipped with rescue, fire, or life support equipment

1 used to assist and rescue persons in emergencies or support
2 emergency personnel in the performance of their duties. This
3 bill amends current law to provide that "rescue vehicle" also
4 includes a motor vehicle which is equipped with hazardous
5 material or emergency management equipment used to assist and
6 rescue persons in emergencies or support emergency personnel in
7 the performance of their duties.

8 Under current law, the driver of an authorized emergency
9 vehicle may exercise certain driving privileges relating to
10 parking and directional signs when responding to an emergency
11 call. In addition, certain types of authorized emergency
12 vehicles including fire department vehicles, police vehicles,
13 and ambulances, as well as peace officers riding on police
14 bicycles, may proceed past red stop signals or stop signs
15 and exceed speed limits while exercising necessary safety
16 precautions and using an audible or visual signal. The bill
17 includes rescue vehicles in the list of authorized emergency
18 vehicles that may ignore red stop signals or stop signs and
19 exceed speed limits in emergency situations. Under current
20 law, a violation of Code section 321.231 is punishable by a
21 scheduled fine of \$100.
